

# PermaPro Acid Stain

---

## PRODUCT DESCRIPTION :

The PermaPro Acid Stains are a line of concentrated inorganic acid based stains that react with the concrete as they penetrate deep into the surface to produce rich, vibrant colors resembling nature's mineral colors. The PermaPro Acid Stains are applied to any clean, cured concrete surface or concrete overlay surface and allowed to react and dry. Once washed and sealed, the various colors that are applied become a permanent part of the concrete with lasting beauty.

---

## HOW TO USE:

1. Clean the concrete surface to make sure it is free of any topical coatings, oil, grease or dirt stains. Use our line of detergent PermaPro Degreaser, PermaPro Stripper according to the problem.
  2. Spray PermaPro Preparator to insure acid stain penetration and wash.
  3. Apply the stain diluted or not with an acid brush, sponge, or plastic sprayer in the color and technique of your choice.
  4. Allow floor to dry thoroughly. Drying time will vary according to the surface conditions and humidity. Next spray a second coat of Acid Stain and let it dry.
  5. Once dry, spray PermaPro Neutralizer. Wash or damp wipe any remaining residue. Rinse off.
  6. Allow the stained floor to dry again and apply PermaPro Sealer Wb or Sl to enrich the color and protect the surface.
  7. Inside, maintain with PermaPro Polish and PermaPro Wash and Polish.
- 

## BENEFITS:

- Economical : The PermaPro Acid Stains can be used straight or could be diluted 1 to 1 with water. The colors cover up to 8 m<sup>2</sup>/liter not diluted to 16 m<sup>2</sup>/liter diluted.
  - UV stable: Once dry and sealed, the stains remain stable and resistant to weather and sun light for years.
  - A wide range of colors: The PermaPro Acid Stains at various dilutions and combinations can offer a multitude of colors and shades for any desired effect in beautifying plain concrete surfaces.
- 

## PROPERTIES and STORAGE :

Type : Reactive acid based concrete stains  
Colors : Various  
Ph : 0,5—1  
Odor : Slightly pungent  
Flammability : Nonflammable  
Storage : One year in original packaging if kept above freezing.  
Packaging : 5 liters  
Coverage : 1 liter = 8 m<sup>2</sup> / 15 m<sup>2</sup>

---

## WARNING :

Wear protective eye shield and chemically resistant gloves when handling. Avoid eye or skin contact.
